

Absorbent Hygiene Products

ONLINE TRAINING COURSE

A unique overview of all aspects of hygiene products, processes and markets. You will learn about the newest raw materials, manufacturing technologies, the importance of product testing and sustainability considerations.

ONLINE TRAINING COURSE

4 SESSIONS OF 3 HOURS EACH

ORGANISED BY

 **edana**
The voice of NONWOVENS

Who should attend

Both technical and marketing persons will benefit from joining this course, especially so as they are likely to be involved with producers, suppliers, converters and retailers within the industry.

This course offers:

- a unique overview of all aspects of hygiene products, processes and markets;
- insight on the newest raw materials, manufacturing technologies, and the importance of product testing;
- a module on sustainability aspects of AHPs.

The course language is English.
